Expand your ability to treat obstructive salivary gland disorders.

**Focused**
This catheter is designed specifically for use in the salivary ducts.

**Versatile**
- Use it in the submandibular or parotid glands.
- Use it to irrigate salivary ducts or flush stone fragments.
- Insert it over a wire guide or through a Kolenda Introducer Sheath.

**Atraumatic**
This flexible, soft-tipped catheter supports minimally invasive intervention and provides a gentle treatment option for in-office and surgical procedures.

www.cookmedical.com
The SialoCath Salivary Duct Catheter is intended to aid in the removal and treatment of salivary duct stones and other duct conditions through irrigation of the ducts and/or through flushing of the salivary ducts. This flexible, single-lumen catheter can be inserted into the salivary duct either over a wire guide or through an appropriately sized introducer sheath.

**Related Products**

**Kolenda Introducer Sheath**
Intended for the introduction of diagnostic or interventional devices in the submandibular salivary duct.

**Wire Guides**
Used to gain and maintain access to the salivary duct.
