Maximize cell collection and preservation.

To better meet your clinical needs, we offer one of the most complete selections of cytology brushes on the market. Uniquely designed to maximize cell collection and preservation, our colonic, esophageal and bronchial brushes are available in a wide array of lengths and configurations, allowing for varying procedural needs and clinician preference.
### Cytology Brushes

Used to collect cells from the bronchi and upper and lower gastrointestinal tracts.

This device is supplied sterile and is disposable – intended for single use only.

- Brush bristles designed for maximum tissue acquisition
- Multiple brush diameters and catheter lengths to meet all your clinical needs
