From cytology to histology: Continuing to increase your predictive values.

EchoTip ProCore®
HD ULTRASOUND BIOPSY NEEDLE

COOK MEDICAL
Get to the core issue throughout the entire GI tract.

EchoTip ProCore allows for collection of histology with cytology while providing access to the entire GI tract, where you can target smaller lesions and increase your yields, all while decreasing your needle passes.¹

More yield, fewer needle passes.

ReCoil™ stylet helps you to easily manage the stylet, minimizing the risk for contamination.

A naturally contoured handle delivers precise needle control and stability.

Coiled sheath facilitates needle flexibility.

of Digestive Diseases, Yale University School of Medicine.
“Cytology is not enough in the diagnosis and treatment of all lesions. You need sufficient quality of material to correctly characterise tumours and conditions.”

Marc Giovannini, MD, PhD, Endoscopic Unit, Paoli-Calmettes Institute Marseilles, France
Leading innovation in EUS since 1998.

Over the years, you've told us what matters to you and we've listened. Incorporating extensive feedback provided by clinicians, we offer you our latest developments in needle flexibility and sampling capability, tailored to you and your pathologist’s needs and heavily supported by published clinical data.

19 gauge needle

20 gauge needle

22 gauge needle

25 gauge needle
Product Specifications

Used with an ultrasound endoscope for fine needle biopsy (FNB) of submucosal lesions, mediastinal masses, lymph nodes and intraperitoneal masses within or adjacent to the gastrointestinal tract.

Supplied sterile and is disposable - intended for single use only.
