Cope Suture Anchor Set

Used for anchoring the anterior wall of the stomach to the abdominal wall prior to the introduction of interventional catheters.

- Flexible ‘spring coil’ suture anchor enhances patient comfort
- Both the introducer needle and introducer cartridge come with one preloaded suture anchor
- Braided suture material increases resilience
- MR Conditional in a static magnetic field of 1.5 T or 3.0 T with a maximum spatial magnetic gradient of 1,600 G/cm or less
Each set includes:

<table>
<thead>
<tr>
<th>Order Number</th>
<th>Reference Part Number</th>
<th>Introducer Needle gage</th>
<th>Introducer Needle Length cm</th>
<th>Anchors</th>
</tr>
</thead>
<tbody>
<tr>
<td>G04474</td>

Cope Suture Anchor Set

Used for anchoring the anterior wall of the stomach to the abdominal wall prior to the introduction of interventional catheters.

- Flexible ‘spring coil’ suture anchor enhances patient comfort
- Both the introducer needle and introducer cartridge come with one preloaded suture anchor
- Braided suture material increases resilience
- MR Conditional in a static magnetic field of 1.5 T or 3.0 T with a maximum spatial magnetic gradient of 1,600 G/cm or less
- Smaller introducer needle and suture anchor than standard Cope set accommodate smaller anatomy
Each set includes:

Order Number    Reference Part Number    Introducer Needle gage    Introducer Needle Length cm    Anchors
G04640            GIAS-100-PED                19                      7                      2

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions. Consult with your local Cook representative or customer service center for details.
Chait Suture Anchor Set – Enterostomy Configuration

Used for anchoring the anterior wall of the hollow viscus to the abdominal wall prior to the introduction of an interventional catheter.

- Flexible ‘spring coil’ suture anchor enhances patient comfort
- Braided suture material increases resilience
- Includes two preloaded sutures
Each set includes:

Chait Percutaneous Cecostomy Catheter

Used to facilitate antegrade colonic cleansing for patients with fecal incontinence.

- Minimally invasive, reversible placement procedure helps maintain patient comfort and quality of life
- Ability to effectively manage fecal incontinence gives patients greater independence and quality of life
- Low-profile ‘trapdoor’ fitting is designed to lie flat against the skin for enhanced patient comfort
- Multi-curl tip configuration provides secure, atraumatic retention within the cecum
- Available in three sizes (short, medium, long) to fit a wide range of patients
Each set includes:

- **Stiffening Cannula**
- **Cecostomy Catheter – Short**
  - Polyurethane
- **Cecostomy Catheter – Medium**
  - Polyurethane
- **Cecostomy Catheter – Long**
  - Polyurethane
- **Chait Access Adapter with Connecting Tube**
- **Inserting Pin**

Tilma Ventricular Gastrostomy Set

Used for gastroenteric feeding.

- Four large, oval sideports in distal portion of catheter facilitate gastric feeding
- Locking loop prevents inadvertent removal from the stomach
- End cap is attached to catheter to help prevent loss or misplacement
Each set includes:

- **INTRODUCER NEEDLE**: 18 gage, 9 cm long
- **AMPLATZ EXTRA-STIFF WIRE GUIDE**: PTFE-coated stainless steel, .038 inch diameter, 100 cm long
- **PEEL-AWAY™ INTRODUCER SHEATH**: Appropriate size
- **LUER LOCK PLUG**
- **ADDITIONAL CAPS**
- **TILMA GASTROSTOMY CATHETER™**: Radiopaque polyurethane
- **FIXATION DEVICE (WITH PULL TIE)**: Silicone
- **CONNECTING TUBE**: Polyvinylchloride, 14.0 Fr

*Locking sleeve contains latex.*

Wills-Oglesby Percutaneous Gastrostomy Set

Used for gastroenteric feeding.

- Soft, smooth Ultrathane® material is ideal for patient comfort
- Locking loop prevents inadvertent removal from the stomach
- Twelve sideports from locking loop to tip facilitate gastric feeding
- Ability to be inserted using Seldinger technique can ease placement
Each set includes:

![Diagram showing catheter needle, dilators, fixation device, enteral feeding adapter, gastrostomy catheter, and connecting tube]

*Locking sleeve contains latex.

Replacement Catheter

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions. Consult with your local Cook representative or customer service center for details.
Carey-Alzate-Coons  
Gastrojejunostomy Set – Double Lumen

Used for jejunal feeding and aspiration of gastric contents from the stomach.

- Soft, smooth Ultrathane material is ideal for patient comfort
- Ability to be inserted using Peel-Away sheaths can ease placement
- Double-lumen configuration allows for simultaneous feeding into the jejunum and aspiration of gastric contents
- The Friction-Lock™ Malecot portion of the feeding catheter prevents inadvertent removal from the stomach
- Cope Suture Anchor Set included facilitates secure fixation of the stomach
- Two sideports in gastric portion of catheter facilitate aspiration
Each set includes:

Order Number  Reference Part Number  Gastric Segment Fr  Jejunal Segment Fr  Catheter Malecot to Gastric End\(^a\) Length cm  Catheter Malecot to Jejunal End Length cm  Gastric Catheter Sideports

\(^a\)Measured from proximal point of Malecot.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions. Consult with your local Cook representative or customer service center for details.

Cope suture anchor set included can be found on pages 4 and 5.
Carey-Alzate-Coons
Gastrojejunostomy Set - Single Lumen

Used for gastroenteric feeding.
• Soft, smooth Ultrathane material is ideal for patient comfort
• Ability to be inserted using Peel-Away sheaths can ease placement
• The Friction-Lock Malecot portion of the feeding catheter prevents inadvertent removal from the stomach
• Cope Suture Anchor Set included facilitates secure fixation of the stomach
Each set includes:

- **INTRODUCER NEEDLE**
  - 18 gage, 9 cm long

- **COONS WIRE GUIDE**
  - PTFE-coated stainless steel, 0.038 inch diameter, 260 cm long

- **SEEKING CATHETER**
  - Radiopaque braided nylon, 7.0 Fr, 110 cm long

- **COONS DILATORS**
  - 10.0 and 14.0 Fr radiopaque

- **SILHOUETTE® TRANSITIONLESS™ PEEL-AWAY INTRODUCER SHEATH**
  - 16.0 Fr radiopaque

- **GASTROJEJUNOSTOMY CATHETER WITH FRICTION-LOCK MALECOT**
  - Ultrathane

- **ENTERAL FEEDING ADAPTER**
  - LUER ADAPTER

- **LUER LOCK PLUG**

- **POSITIONING MARK**
  - ANCHORING POSITION OF FRICTION-LOCK MALECOT

Cope suture anchor set included can be found on pages 4 and 5.

*Locking sleeve contains latex.
Cope suture anchor set included can be found on pages 4 and 5.
Enteral Feeding Adapters

• Accommodates caregivers by allowing adapters to be changed at any time
• Clear labeling and red color indicate that adapter facilitates feeding
• Conveniently fits large-bore Luer gastrostomy and gastrojejunostomy tubes
Accessories available separately:

- Enteral Feeding Adapter
  - Order Number: GS0006
  - Part Number: FTA-LMLLA-R

- Luer Adapter
  - Order Number: GS0007
  - Part Number: FTA-CONV

- Drainage Bag Connector
  - Order Number: G14226
  - Part Number: 050031

*Drainage bag connector for Tilma Ventricular Gastrostomy Set only.

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions. Consult with your local Cook representative or customer service center for details.
Bilbao-Dotter Hypotonic Duodenography Set

Used to perform radiographic studies that show duodenal anatomy.

• Three different set configurations can accommodate specific physician preferences
• PTFE-coated torque cable reduces friction and enhances directional control into the duodenum
Each set includes:
