Wayne
PNEUMOTHORAX CATHETER
Wayne Pneumothorax Catheter Sets and Trays

Intended for the relief of simple, spontaneous, iatrogenic, and tension pneumothorax. The catheter is made of radiopaque polyurethane.

- The radiopaque polyurethane material is kink resistant, and the catheter features multiple sideports to maximise drainage capabilities.
- The small-bore pigtail catheter design helps reduce trauma to internal anatomy.
- The Seldinger bedside set and tray include echogenic technology for convenience, consistency, and accuracy.

Trocar method - Set

Components

- Radiopaque polyurethane pigtail catheter
- Stainless steel needle obturator
- Connecting tubing
- #11 scalpel
- One-way chest drain valve
- Three-way stopcock
Seldinger method - Set

Components
- Radiopaque polyurethane pigtail catheter
- Pigtail straightening obturator
- Connecting tubing
- #11 scalpel
- Wire guide
- One-way chest drain valve
- 14 Fr dilator
- Three-way stopcock
- 18 gage echogenic and percutaneous entry needles
- Needle holder cup
