Endoscopic Mucosal Resection with the Duette® Multi-Band Mucosectomy Device

2017 CODING AND REIMBURSEMENT GUIDE

The Cook Endoscopy Duette Multi-Band Mucosectomy Device is used for endoscopic mucosal resection in the upper GI tract. The device uses suction and banding to create esophageal mucosal pseudopolyps, which can then be removed in a similar fashion to a standard polypectomy. Resecting multiple pseudopolyps allows the physician to perform an endoscopic mucosal resection.

Coverage, coding and payment for medical procedures and devices can be confusing. This guide was developed to assist with Medicare reporting and reimbursement when performing endoscopic mucosal resection. If you have any questions, please contact our reimbursement team at 800.468.1379 or by e-mail at reimbursement@cookmedical.com.

Coverage

Medicare carriers may issue local coverage decisions (LCDs) listing criteria that must be met prior to coverage. Physicians are urged to review these policies (http://www.cms.hhs.gov/mcd/search.asp?) and contact their carriers’ medical directors (www.cms.hhs.gov/apps/contacts) or commercial insurers to determine if a procedure is covered.

CPT Coding

Endoscopic Mucosal Resection

The following Current Procedural Terminology (CPT®) codes would apply to the Duette Multi-Band Mucosectomy Device:

- **43211** Esophagoscopy, flexible, transoral; with endoscopic mucosal resection
  (Do not report 43211 in conjunction with 43201, 43202, 43217 for the same lesion)

- **43254** Esophagogastroduodenoscopy, flexible, transoral; with endoscopic mucosal resection
  (Do not report 43254 in conjunction with 43236, 43239, 43251 for the same lesion)
## Payment

### 2017 Medicare Reimbursement for Endoscopic Mucosal Resection

**Note:** Alternative payment policies may apply when multiple services are performed at the same encounter, including but not limited to, multiple procedure payment reductions and comprehensive ambulatory payment classifications (C-APC).

¹2017 Medicare Ambulatory Surgery Center Fee Schedule  
²2017 Medicare Hospital Outpatient Prospective Payment System (OPPS) Fee Schedule  
³2017 Medicare Physician Fee Schedule  
*N/A - Medicare has not developed a rate for the in-office setting because these procedures are typically performed in a hospital setting. Physicians should contact the Medicare contractor to determine if the service can be performed in-office. If the contractor determines that the service or procedure may be performed in-office, the physician will receive Medicare’s physician fee schedule amount for procedures performed in the hospital/ASC.
